RF POWER MODULES

mitsubishi

Mini-Kits offers a limited number of Mitsubishi Power modules for the 144 to 1200MHz bands. Due to Mitsubishi's minimum ordering quantities, & the cost of stocking these modules, Mini-Kits does not stock all module types. Current demand is for power amplifiers for 144MHz & above. **All Mitsubishi Power Modules are extensively tested in Manufacture, & are supplied in static safe packaging.**

**FOR THE CURRENTLY STOCKED PRODUCTS & PRICES
PLEASE REFER TO WWW.MINIKITS.COM.AU/KITS2.HTML**

Mitsubishi No Longer Manufacture the M Series Power Modules. These have been replaced with the New MOSFET RA types. There is currently no MOSFET replacement for the M67715 or M57735 modules.
