

RESISTORS

SMD CHIP RESISTORS

Chip Resistors are supplied in packs of 10 of the same value. Most resistors are 1206, (SMR) size & rated at 250mW with 5% tolerance. Some selected values of 0603, (SMS) size are available for building miniature circuits.

RESISTORS

PTC POLYSWITCH PROTECTORS

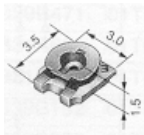

Positive Temperature Coefficient resistor that is suitable for over current protection. The specifications are in still air at 20degC. Trip & Hold I, (current) are in Amps. Pin spacing is 5mm.

Order No	Description	Hold I A	Trip I A	Price ea
RXE010	Polyswitch	0.10	0.20	\$1.40
