

## EME 165 Response for Mini-Kitts 18 Jan 2011 Keith Williams.

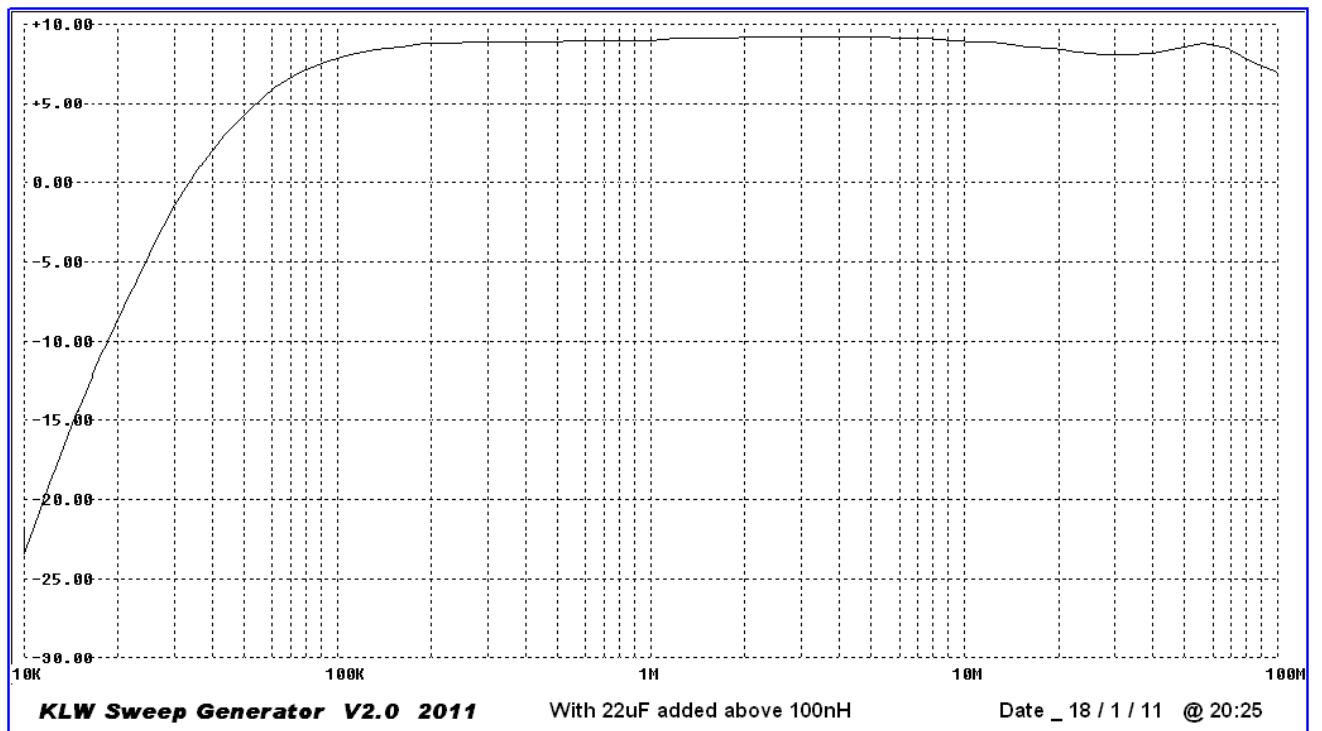

What the operator views on the PC when sweeping a filter.

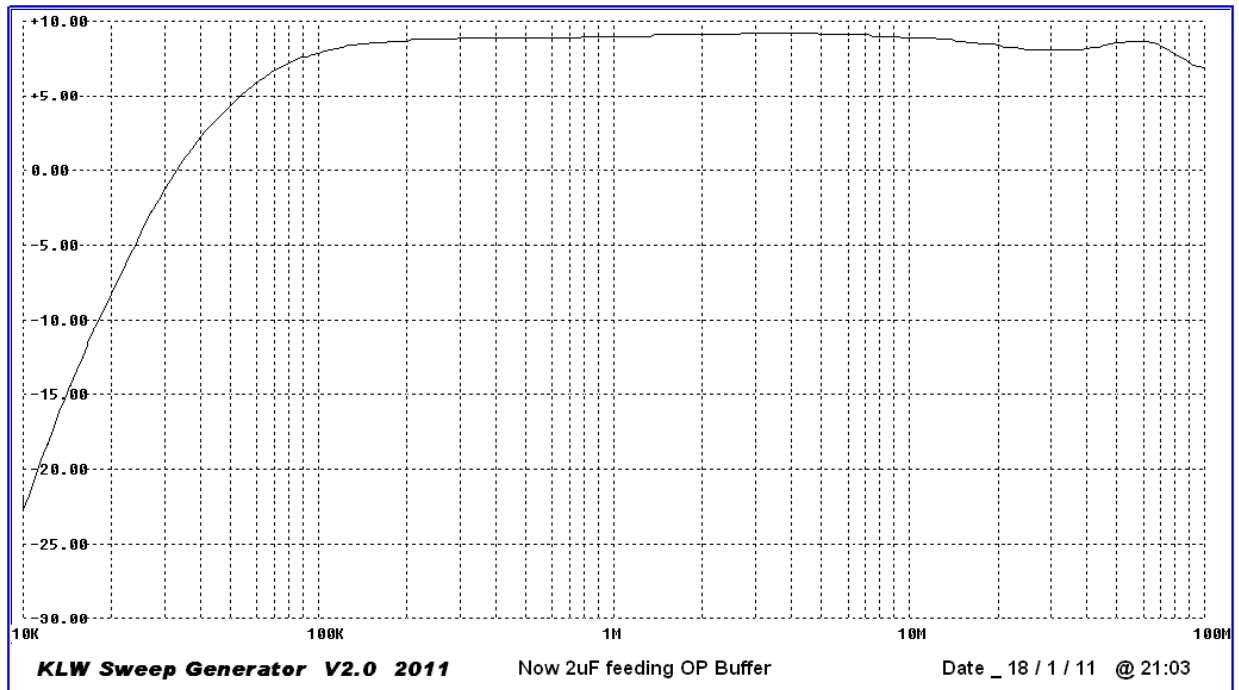

EME 165 DDS feeding EME 151A Power Head ....Response without mods

With 100 nH replacing 10 nH and 3 off 0.1 uF increased to 1.0 uF

Inductor supply bypassed with 22 uF electro plus 100 uH plus 1.0 uf feed capacitors

**Last Mod .... increase Gali 84 feed and o/p capacitors to 2.0 uF**

**Final view.... Is it the transformer?**

**However, much better from 100 KHz.**
